Note 1: Status of auditing procedure

This summary of financial results is not subject to audit procedures by certified public accountant or audit firm.

Note 2: Forecasts for operating revenues, operating income, ordinary income, and net income, distribution per unit and distribution in excess of earnings per unit may differ significantly from actual results due to changes in operating conditions and a variety of factors. Accordingly, TOKYU REIT does not guarantee any distribution amount. Forecasts presented in this document are based on "Assumptions for Forecasts for the Fiscal Period Ending July 2023 and the Fiscal Period Ending January 2024" identified in the separate reference attached.

Assumptions for Forecasts for the Fiscal Period Ending July 2023 and the Fiscal Period Ending January 2024

Forecasts for operating revenues, operating income, ordinary income, net income, distribution per unit and distribution in excess of earnings per unit for the fiscal period ending July 2023 and the fiscal period ending January 2024 are based on the following preconditions and assumptions. If major discrepancies between the following assumptions and initial forecast are found, and if they may cause a certain level of change in forecast figures displayed above, a revised forecast shall be drafted and announced immediately.

	Preconditions and Assumptions
Property portfolio	• Regarding the 31 properties owned by TOKYU REIT as of January 31, 2023, it is assumed that there will be no transfers (additional property acquisition or disposition of owned properties) until the end of the fiscal period ending January 2024.
Operating revenues	 Rental revenue is calculated in consideration of rent level, occupancy rate, etc. fluctuation factors in light of recent real estate market conditions, state of negotiations with tenants, presence of competitive properties in the area, etc. In addition, there is assumed to be no payment delay or nonpayment by tenants. Occupancy Rates as of the end of the fiscal period ending July 2023 and the fiscal period ending January 2024 are projected to be 99.3% and 99.6%, respectively.
Operating expenses	 Outsourcing expenses for the fiscal period ending July 2023 and the fiscal period ending January 2024 are projected to be ¥552 million and ¥553 million, respectively. Repair, maintenance and renovation expenses for buildings for the fiscal period ending July 2023 and the fiscal period ending January 2024 are projected to be ¥172 million and ¥153 million, respectively. In an aim to improve the competitiveness of properties and the satisfaction of tenants under management, etc., constructions scheduled in the future will be implemented with priority. Actual repair, maintenance and renovation expenses for each fiscal period may, however, differ significantly from estimated amounts due to unforeseen circumstances or emergencies and the others. Property and other taxes, such as fixed property tax and city planning tax, on real estate TOKYU REIT possesses, are calculated based on the amount expected to be imposed in each fiscal period (Period Ending July 2023: ¥685 million / Period Ending January 2024: ¥683 million). Fixed property tax and other taxes paid as part of the purchase prices to the seller upon the property acquisition were not recorded as expenses but included in the relevant property acquisition costs. Depreciation and amortization expenses, including associated costs and additional capital expenditure in the future, are calculated based on the straight-line method (Period Ending July 2023: ¥957 million / Period Ending January 2024: ¥970 million). Rental expenses other than those listed above are calculated in consideration of fluctuation factors based on results in past fiscal periods. Operating expenses other than expenses from real estate operation (investment management fees and asset custodian fees, etc.) for the fiscal period ending July 2023 and the fiscal period ending January 2024 are expected to be ¥810 million and ¥821 million, respectively.
Non-operating expenses	• Interest expenses for the fiscal period ending July 2023 and the fiscal period ending January 2024 are expected to be ¥406 million and ¥419 million, respectively. Interest expenses include interest expense, interest expense on investment corporation bonds.
Interest-Bearing Debt	 The balance of interest-bearing debt as of January 31, 2023, is ¥104,500 million (long-term debt of ¥93,500 million and investment corporation bonds of ¥11,000 million). As for long-term debt of ¥5,000 million due for repayment in the fiscal period ending July 2023, it is assumed that it will be entirely refinanced. In addition, it is assumed that ¥1,000 million of short-term debt will be procured during the fiscal period ending July 2023 and repaid using cash on hand during the period. As for long-term debt of ¥5,500 million due for repayment in the fiscal period ending January 2024, it is assumed that it will be entirely refinanced. Balance of interest-bearing debt as of the end of the fiscal period ending July 2023 and the fiscal period ending January 2024 are projected to be ¥104,500 million (long-term debt of ¥93,500 million and investment corporation bonds of ¥11,000 million). LTVs as of the end of the fiscal period ending July 2023 and the fiscal period ending January 2024 are projected to be 43.6% and 43.7%, respectively. (LTV: Interest-bearing debt (forecast) / total assets (forecast))

Total number of investment units issued and outstanding	• It is assumed that there will be no additional issuance of investment units to the 977,600 units issued and outstanding as of March 16, 2023, through the end of the fiscal period ending January 2024.
Distribution per unit	 Distribution per unit is calculated based on the distribution policy stipulated in the Articles of Incorporation. Calculations are based on a 100% distribution of retained earnings. Distribution for the fiscal period ending July 2023 is assumed to be distributed through reversal of part of the reserve for reduction entry (¥373 million) and part of the reserve for reduction entry of replaced property (¥58 million). Distribution for the fiscal period ending January 2024 is assumed to be distributed through reversal of part of the reserve for reduction entry (¥229 million) and part of the reserve for reduction entry of replaced property (¥58 million). It is possible that the distribution per unit could change due to various factors, including changes in assets under management, changes in rental revenue accompanying changes in tenants, etc., and unexpected maintenance and repairs.
Distribution in excess of earnings per unit	TOKYU REIT does not currently anticipate distribution in excess of earnings per unit.
Other	 Forecasts are based on the assumption that any major revisions to regulatory requirements, accounting standards and taxation will not impact forecast figures. Forecasts are based on the assumption that there will be no major unforeseen changes to economic trends and in real estate and other markets.
